| **basalte**

single, black aluminium lever with LED
brushed dark grey

VIRTUOSO AND CLASSY

Chopin's front cover comes in all Basalte luxury finishes allowing a **consistent and minimalist look**.

Composed comfort

Controlling Chopin feels a bit like **playing the piano**. Push the levers up or down to dim the lights, draw the curtains and let your favourite music enter the room.

Chopin natively integrates with KNX, Crestron® and Lutron® systems with an LED light indicating its status. An internal temperature sensor discretely reports the room temperature to the smart home system.

Moreover, Chopin is also available in a dry contact closure version.

bronze

Built to last

Opt for 1 or 2 levers in 3 different finishes: black aluminium, chromed or gold plated, **creating a sophisticated and timeless appearance.**

Made in Belgium to the high standards for which Basalte products are known, Chopin is precision-machined from one piece and **carefully assembled by hand.**

Its fine mechanics are supremely durable and, despite miniature construction, stand the test of time.
